Independent Auditor's Report

To the Shareholders of ARIP Public Company Limited

Opinion

I have audited the accompanying financial statements of ARIP Public Company Limited (the Company), which comprise the statement of financial position as at 31 December 2019, and the related statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ARIP Public Company Limited as at 31 December 2019, its financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Company in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

Building a better
working world

I have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matters and how audit procedures respond for each matter are described below.

Revenue recognition

The Company's sales and service income forms a significant amount and due to the nature of the Company's business with variety of types of income are generated. I therefore addressed the measurement and timing of revenue recognition as a key audit matter.

I have examined the revenue recognition of the Company by

- Assessing and testing the Company's IT system and its internal controls with respect to the revenue cycle by making enquiry of responsible executives, gaining an understanding of the controls and selecting representative samples to test the operation of the designed controls.
- Applying a sampling method to select service agreements and sale transactions occurring during the year and near the end of the accounting period to verify the occurrence and accuracy of revenue, whether revenue recognition was consistent with the conditions, and whether it was in compliance with the Company's policy.
- Reviewing credit notes that the Company issued after the period-end.
- Performing analytical procedures on disaggregated data to detect possible irregularities in transactions throughout the period, particularly for accounting entries made through journal vouchers.

Deferred tax

The Company has disclosed its accounting policy and details relating to deferred tax in Notes 4.14 and Notes 23 to the financial statements. A deferred tax asset is recognised when it is highly probable that the Company's taxable profit will be sufficient to allow utilisation of the deferred tax in the future. Determining whether there will be sufficient future taxable profit to utilise temporary differences or taxable losses requires significant management judgment with respect to preparation of business plans and projections of future taxable profit based on approved business plans. Therefore, there is a risk with respect to the amount of deferred tax assets.

Building a better
working world

I assessed the estimates of future taxable profit by checking the required information and key economic assumptions used in the projections against information from internal sources, with particular consideration given to information and assumptions that directly affect revenue growth and gross profit margin. Furthermore, I performed comparative past profit projections with actual taxable profits to assess the exercise of management judgment in estimating taxable profits. I also tested the calculation of future taxation profit based on the above information and assumptions.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Company, but does not include the financial statements and my auditor's report thereon. The annual report of the Company is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Company, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Building a better
working world

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Building a better
working world

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

ARIP Public Company Limited
Notes to financial statements
For the year ended 31 December 2019

1. General information

ARIP Public Company Limited ("the Company") is a public company incorporated and domiciled in Thailand. The Company is principally engaged in the management of events and marketing activities, the production and distribution of IT-related publications, and the placement of advertisements. The registered office of the Company is at 99/16-20 Ratchadapisek Road, Din Daeng, Bangkok.

2. Basis of preparation

The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development dated 11 October 2016, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

3 New financial reporting standards

(a) Financial reporting standards that became effective in the current year

During the year, the Company has adopted the revised (revised 2018) and new financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2019. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. The adoption of these financial reporting standards does not have any significant impact on the Company's financial statements. However, the new standard involves changes to key principles, which are summarised below:

TFRS 15 Revenue from Contracts with Customers

TFRS 15 supersedes the following accounting standards together with related interpretations.

TAS 11 (revised 2017)	Construction Contracts
TAS 18 (revised 2017)	Revenue
TSIC 31 (revised 2017)	Revenue - Barter Transactions Involving Advertising Services
TFRIC 13 (revised 2017)	Customer Loyalty Programmes
TFRIC 15 (revised 2017)	Agreements for the Construction of Real Estate
TFRIC 18 (revised 2017)	Transfers of Assets from Customers

Entities are to apply this standard to all contracts with customers unless those contracts fall within the scope of other standards. The standard establishes a five-step model to account for revenue arising from contracts with customers, with revenue being recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model.

This standard does not have any significant impact on the Company's financial statements.

(b) Financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2020

The Federation of Accounting Professions issued a number of new and revised financial reporting standards and interpretations, which are effective for fiscal years beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards except the following new standards which involve changes to key principles, which are summarised below.

Financial reporting standards related to financial instruments

A set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows:

Financial reporting standards:

TFRS 7	Financial Instruments: Disclosures
TFRS 9	Financial Instruments

Accounting standard:

TAS 32	Financial Instruments: Presentation
--------	-------------------------------------

Financial Reporting Standard Interpretations:

TFRIC 16	Hedges of a Net Investment in a Foreign Operation
TFRIC 19	Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments. When the TFRSs related to financial instruments are effective, some accounting standards, interpretations and guidance which are currently effective will be cancelled.

The management of the Company expects the adoption of these accounting standards to result in the following adjustment.

- Recognition of credit losses - The Company is to recognise an allowance for expected credit losses on its financial assets, and it is no longer necessary for a credit-impaired event to have occurred. The Company applies the simplified approach to consider impairment of trade receivables.

The management of the Company believes that the adoption of these standards will not have any significant impact on the financial statements.

TFRS 16 Leases

TFRS 16 supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles to those used under TAS 17.

The management of the Company believes that adoption of this standard will not have any significant impact on the financial statements.

4. Significant accounting policies

4.1 Revenue recognition

Sales of goods

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. Revenue is measured at the amount of the consideration received or receivable, excluding value added tax, of goods supplied after deducting returns, discounts, allowances and price promotions to customers.

Magazine subscription income

Magazine subscription income is recognised over time based on straight-line basis over the subscription period.

Rendering of services

Service revenue is recognised over time when services have been rendered taking into account the stage of completion, using output method, measuring based on information provided by the project managers.

The recognised revenue which is not yet due per the contracts has been recorded as "Accrued income". The amounts recognised as trade receivables when the Company's right to consideration is unconditional such as upon completion of services and acceptance by the customer.

Advertising service income is recognised at a point in time when the service has been rendered. The service is generally considered to be rendered when the advertisement is issued.

Arrangement of exhibitions and seminar is recognised at a point in time when the event has occurred.

License income

License income is recognised as revenue at a point in time on delivery of the right to use program, provided that there are no significant post delivery obligations.

Interest income

Interest income is recognised on an accrual basis based on the effective interest rate.

4.2 Cost to fulfill a contract

The Company recognised costs that relate to the satisfaction of performance obligations under the contract as asset, when the costs generate or enhance resources of the entity that will be used in satisfying performance obligations in the future and are expected to be recovered. The costs are amortised on a systematic basis that is consistent with the nature of the revenue recognition. The Company recognised impairment loss to the extent that the carrying amount of an asset exceeds the amount of the consideration less related cost.

4.3 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

4.4 Trade accounts receivable

Trade accounts receivable are stated at the net realisable value. Allowance for doubtful accounts is provided for the estimated losses that may be incurred in collection of receivables. The allowance is generally based on collection experiences and analysis of debt aging.

4.5 Inventories

Inventories are valued at the lower of average cost and net realisable value.

4.6 Property, building and equipment / depreciation

Land is stated at cost. Buildings and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of building and equipment is calculated by reference to their costs on the straight-line basis over the following estimated useful lives:

Building	-	20 years
Building improvements	-	5, 10, 20 years
Computer equipment	-	3, 5 years
Office equipment and furniture	-	5 years
Motor vehicles	-	5 years

Depreciation is included in determining income.

No depreciation is provided on land and assets under installation.

An item of property, building and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

4.7 Intangible assets/amortisation

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Intangible assets with finite lives are amortised on a systematic basis over the economic useful life and tested for impairment whenever there is an indication that the intangible assets may be impaired. The amortisation period and the amortisation method for such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

A summary of the intangible assets with finite useful lives is as follows:

	<u>Useful lives</u>
Computer softwares	3, 5 years
E-course	3 years

4.8 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

They also include individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors, and officers with authority in the planning and direction of the Company's operations.

4.9 Long-term leases

Leases of equipment which transfer substantially all the risks and rewards of ownership are classified as financial leases. Financial leases are capitalised at the lower of the fair value of the leased assets and the present value of the minimum lease payments. The outstanding rental obligations, net of finance charges, are included in long-term payables, while the interest element is charged to profit or loss over the lease period. The assets acquired under finance leases are depreciated over the useful life of the asset.

Leases of building and equipment which do not transfer substantially all the risks and rewards of ownership are classified as operating leases. Operating lease payments are recognised as an expense in profit or loss on a straight-line basis over the lease term.

4.10 Foreign currencies

The financial statements are presented in Baht, which is also the Company's functional currency.

Transactions in foreign currency are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies outstanding are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

4.11 Impairment of assets

At the end of each reporting period, the Company performs impairment reviews in respect of property, building and equipment and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount. In determining value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by a valuation model that, based on information available, reflects the amount that the Company could obtain from the disposal of the asset in an arm's length transaction between knowledgeable, willing parties, after deducting the costs of disposal.

An impairment loss is recognised in profit or loss.

4.12 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits

Defined contribution plans

The Company and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Company. The fund's assets are held in a separate trust fund and the Company's contributions are recognised as expenses when incurred.

Defined benefit plans

The Company has obligations in respect of the severance payments it must make to employees upon retirement under labor law. The Company treats these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from defined benefits plans are recognised immediately in other comprehensive income.

Past service costs are recognised in profit or loss on the earlier of the date of the plan amendment or curtailment and the date that the Company recognises restructuring-related costs.

4.13 Provisions

Provisions are recognised when the Company has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

4.14 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rate enacted at the end of the reporting period.

The Company recognises deferred tax liabilities for all taxable temporary differences while it recognises deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Company reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Company records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

4.15 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Company apply a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Company measure fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

- Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities
- Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Company determine whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

5. Significant accounting judgments and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgments and estimates regarding matters that are inherently uncertain. These judgments and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgments and estimates are as follows:

Estimated stage of completion

The Company recognises service revenue over the period for which service is rendered taking into account the stage of completion. The management is required to use judgement based on the best information available in the current situation and business experience to measure progress towards complete satisfaction of a performance obligation (output method), based on information provided by the project managers.

Allowance for doubtful accounts

In determining an allowance for doubtful accounts, the management needs to make judgment and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the prevailing economic condition.

Intangible assets

The initial recognition and measurement of intangible assets, and subsequent impairment testing, require management to make estimates of cash flows to be generated by the asset or the cash generating units and to choose a suitable discount rate in order to calculate the present value of those cash flows.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

Post-employment benefits under defined benefit plans

The obligation under the defined benefit plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

As at 31 December 2019 and 2018, the balances of the accounts between the Company and those related parties are as follows:

	(Unit: Thousand Baht)	
	2019	2018
Trade and other receivables - related parties (Note 9)		
Related companies (related by common shareholders and directors)	10,012	10,535
Trade and other payables - related parties (Note 16)		
Related companies (related by common shareholders and directors)	714	3,297

Directors and management's benefits

During the years ended 31 December 2019 and 2018, the Company had employee benefit expenses payable to their directors and management as below.

	(Unit: Thousand Baht)	
	2019	2018
Short-term employee benefits	14,381	12,638
Post-employment benefits	234	381
Total	14,615	13,019

7. Cash and cash equivalents

	(Unit: Thousand Baht)	
	2019	2018
Cash	130	130
Bank deposits	72,671	89,754
Bill of exchange	-	14,855
Total	72,801	104,739

As at 31 December 2019, bank deposits carried interests between 0.37% and 1.40% per annum (2018: between 0.38% and 4.10% per annum).

As at 31 December 2019, the Company had investment in bill of exchange of Baht 14.86 million, which invested through a securities company. This bill of exchange issued by Lease It Public Company Limited (related party). This bill of exchange was matured in 3 months, on 28 March 2019. During 2019, the Company earned interest income from bill of exchange amounted to Baht 0.67 million (2018: Baht 0.23 million).

8. Current investment

As at 31 December 2019, the Company had invested in fixed deposit with a maturity of more than 3 months totalling Baht 1.0 million (2018: Baht 0.9 million). The fixed deposit carried interest at rates of 0.90% - 1.00% per annum (2018: 0.90% - 1.00% per annum).

9. Trade and other receivables

	(Unit: Thousand Baht)	
	2019	2018

10. Inventories

	(Unit: Thousand Baht)					
	Cost		Reduce cost to net realisable value		Inventories - net	
	2019	2018	2019	2018	2019	2018
Finished goods	737	750	(618)	(601)	119	149
Raw materials	49	80	-	-	49	80
Total	786	830	(618)	(601)	168	229

During the current year, the Company reduced cost of inventories by Baht 0.025 million (2018: Baht 0.029 million), to reflect the net realisable value. In addition, the Company reversed the write-down of cost of inventories by Baht 0.008 million (2018: Baht 0.017 million), and reduced the amount of inventories recognised as expenses during the year.

11. Deferred service costs

(Unit: Thousand Baht)

	2019	2018
Net book value at beginning of year	4,118	85
Addition	35,073	21,677
Amortisation	(24,549)	(17,644)
Net book value at end of year	14,642	4,118

12. Restricted bank deposits

As at 31 December 2019 and 2018, restricted bank deposits are detailed below.

- 12 months fixed deposit of Baht 6.0 million pledged with a bank to secure bank overdrafts facility of Baht 5.0 million and bank guarantee facility of Baht 20.0 million.
- 6 months fix deposit of Baht 0.5 million and saving bank deposit of Baht 5 million pledged with banks to secure the issuance of bank guarantees granted by the banks to the Company.

13. Property, building and equipment

Amortisation for the year				
2018				3,625
2019				844

As at 31 December 2019, certain computer software has been fully amortised but is still in use. The original cost of those assets amounted to approximately Baht 20.6 million (2018: Baht 20.3 million).

15. Withholding tax deducted at source

	(Unit: Thousand Baht)	
	2019	2018
Year 2015	-	4,227
Year 2016	2,970	2,970
Year 2017	3,868	3,868
Year 2018	3,191	3,190
Year 2019	3,456	-
Total	<u>13,485</u>	<u>14,255</u>

The Company has requested for a refund of the withholding tax deducted at source from the Revenue Department. However, its net realisable value is subject to the result of a tax audit by the Revenue officials. The management believes that the Company will receive the refund in full amount in the future.

In 2019, the Company received a refund of withholding tax deducted at source of the year 2015 of Baht 3.7 million. The Company written-off the rest of withholding tax deducted at source of the year 2015 of Baht 0.5 million.

16. Trade and other payables

	(Unit: Thousand Baht)	
	2019	2018
Trade payables - related parties (Note 6)	705	3,297
Trade payables - unrelated parties	10,198	3,932
Accrued expenses - related parties (Note 6)	9	-
Accrued expenses - unrelated parties	7,158	8,726
Total trade and other payables	<u>18,070</u>	<u>15,955</u>

17. Liability under finance lease agreement

	(Unit: Thousand Baht)	
	2019	2018
Liability under finance lease agreement	1,188	1,620
Less: Deferred interest expenses	(98)	(177)
Total	1,090	1,443
Less: Portion due within one year	(375)	(353)
Liability under finance lease agreement - net of current portion	715	1,090

The Company has entered into the finance lease agreements with leasing company for rental of vehicles for use in its operation, whereby it is committed to pay rental on a monthly basis. The term of the agreement is generally 5 years.

Future minimum lease payments required under the finance lease agreement were as follows:

	(Unit: Thousand Baht)		
	A at 31 December 2019		
	Less than		
	1 year	1 - 4 year	Total
Future minimum lease payments	432	756	1,188
Deferred interest expenses	(57)	(41)	(98)
Present value of future minimum lease payments	375	715	1,090

	(Unit: Thousand Baht)		
	A at 31 December 2018		
	Less than		
	1 year	1 - 4 year	Total
Future minimum lease payments	432	1,188	1,620
Deferred interest expenses	(79)	(98)	(177)
Present value of future minimum lease payments	353	1,090	1,443

18. Provision for long-term employee benefits

Provision for long-term employee benefits as at 31 December 2019 and 2018, which is compensations on employees' retirement, was as follows:

	(Unit: Thousand Baht)	
	2019	2018
Provision for long-term employee benefits		
at beginning of year	6,913	6,346
Included in profit or loss:		
Current service cost	783	708
Interest cost	225	132
Past service cost from the plan amendment	1,484	-
Included in other comprehensive income:		
Actuarial (gain) loss arising from:		
Demographic assumptions changes	-	(891)
Financial assumptions changes	-	44
Experience adjustments	-	2,074
Benefit paid during the year	(3,255)	(1,500)
Provision for long-term employee benefits		
at end of year	6,150	6,913

The Company expects no payment to be made for long-term employee benefits during the next year (2018: Nil).

As at 31 December 2019, the weighted average duration of the liabilities for long-term employee benefit is 10 years (2018: 10 years).

Significant actuarial assumptions are summarised below:

	2019	2018
	(%per annum)	(%per annum)
Discount rate	2.7	2.7
Future salary increase rates (depending on age)	4.0 - 7.5	4.0 - 7.5
Staff turnover rates	0 - 27.0	0 - 27.0

The result of sensitivity analysis for significant assumptions that affect the present value of the long-term employee benefit obligation as at 31 December 2019 and 2018 are summarised below:

31 December 2019				
	Increase	Effect to obligation	Decrease	Effect to obligation
	(%)	(Thousand Baht)	(%)	(Thousand Baht)
Discount rate	1	(715)	1	805
Salary increase rate	1	784	1	(712)
Turnover rate	10	(370)	10	409

31 December 2018				
	Increase	Effect to obligation	Decrease	Effect to obligation
	(%)	(Thousand Baht)	(%)	(Thousand Baht)
Discount rate	1	(548)	1	618
Salary increase rate	1	531	1	(484)
Turnover rate	10	(289)	10	319

On 5 April 2019, The Labor Protection Act (No. 7) B.E. 2562 was announced in the Royal Gazette. This stipulates additional legal severance pay rates for employees who have worked for an uninterrupted period of twenty years or more, with such employees entitled to receive not less than 400 days' compensation at the latest wage rate. The law is effective from 5 May 2019. This change is considered a post-employment benefits plan amendment and the Company has additional long-term employee benefit liabilities of Baht 1.5 million as a result. The Company reflect the effect of the change by recognising past service costs as expenses in the income statement of the current year.

19. Statutory reserve

Pursuant to Section 116 of the Public Limited Companies Act B.E. 2535, the Company is required to set aside to a statutory reserve at least 5 percent of its net income after deducting accumulated deficit brought forward (if any), until the reserve reaches 10 percent of the registered capital. The statutory reserve is not available for dividend distribution.

At present, the statutory reserve has fully been set aside.

20. Revenue from contracts with customers

20.1 Disaggregated revenue information

	(Unit: Thousand Baht)	
	2019	2018
Type of goods or service:		
Income from sale	3,166	3,131
Income from management of events and seminar	79,148	58,331
Income from service	82,113	74,202
Total revenue from contracts with customers	164,427	135,664
Timing of revenue recognition:		
Revenue recognised at a point in time	135,981	118,241
Revenue recognised over time	28,446	17,423
Total revenue from contracts with customers	164,427	135,664

20.2 Revenue recognised in relation to contract balances

	(Unit: Thousand Baht)	
	2019	2018
Revenue recognised that was included in the beginning of the year of contract liabilities	230	828

20.3 Revenue to be recognised for the remaining performance obligations

As at 31 December 2019, revenue aggregating to Baht 29.1 million is expected to be recognised in the future relating to performance obligations that are unsatisfied of contracts with customer (2018: Baht 3.9 million).

21. Contract balances

	(Unit: Thousand Baht)	
	31 December 2019	31 December 2018
Contracts asset (Note 9)	56,323	39,511
Contract liabilities	206	281

22. Expenses by nature

Significant expenses classified by nature are as follows:

	(Unit: Million Baht)	
	2019	2018
Employee expenses	52	46
Cost of sales, advertising media and services	87	64
Depreciation and amortisation	3	6
Consultant and management fees	3	2

23. Income tax

Income tax for the years ended 31 December 2019 and 2018 were made up as follows:

	(Unit: Thousand Baht)	
	2019	2018
Current income tax:		
Current income tax charge	-	-
Deferred tax:		
Relating to origination and reversal of temporary differences	1,753	920
Tax expense reported in the statement of comprehensive income	1,753	920

The reconciliation between accounting profit and income tax expense was shown below:

	(Unit: Thousand Baht)	
	2019	2018
Accounting profit before tax	3,081	4,320
Applicable tax rate	20%	20%
Accounting profit before tax multiplied by applicable tax rate	616	864
Adjustment in respect of income tax of previous year	-	32
Reversal deferred tax assets as previously recorded	1,001	-
Effects of:		
Non-deductible expenses	329	225
Additional expense deductions allowed	(193)	(201)
Total	136	24
Tax expense reported in the statement of comprehensive income	1,753	920

The amounts of income tax relating to each component of other comprehensive income for the years ended 31 December 2019 and 2018 were as follows:

	(Unit: Thousand Baht)	
	2019	2018
Deferred income tax relating to:		
Actuarial loss	-	(245)

The components of deferred tax assets are as follows:

	(Unit: Thousand Baht)	
	2019	2018
Deferred tax assets		
Allowance for doubtful accounts	164	167
Allowance for diminution in value of inventories	123	120
Provision for long-term employee benefits	1,230	1,383
Tax losses	1,090	2,690
Total	2,607	4,360

24. Promotional privilege

The Company has received promotional privilege from the Board of Investment for the manufacture of Enterprise software, Digital content and Embedded Software, pursuant to the promotion certificate No. 2911(7)/2555 issued on 20 December 2012. Subject to certain imposed conditions, the tax privilege of the Company includes an exemption from corporate income tax on income from the promoted activities for a period of 8 years as from the date of first earning operating income (8 October 2013).

During the year 2019, the Company has operating revenue derived from promoted operation of Baht 0.1 million (2018: Baht 0.2 million).

25. Earnings per share

Basic earnings per share is calculated by dividing profit for the year (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

Calculation of basic earnings per share is presented below:

	2019	2018
Profit for the year (Thousand Baht)	1,328	3,400
Weight average number of ordinary shares (Thousand shares)	466,000	466,000
Basic earnings per share (Baht/share)	0.003	0.007

26. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance.

For management purposes, the Company is organised into business units based on its products and services and has three reportable segments as follows:

- Media and contents
- Management of event
- Digital service

During the year, no operating segments have been aggregated to form the above reportable operating segments.

The chief operating decision maker monitors the operating results of the business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and total assets and on a basis consistent with that used to measure operating profit or loss and total assets in the financial statements. However, the Company financing activities (including finance costs and finance income) and income taxes are managed on a company basis and are not allocated to operating segments.

The basis of accounting for any transactions between reportable segments is consistent with that for third party transactions.

The following tables present revenue and profit information regarding the Company's operating segments for the years ended 31 December 2019 and 2018, respectively.

(Unit: Thousand Baht)

Year ended 31 December 2019						
	Media and contents	Management of events	Digital service	Total segments	Elimination of inter-segment revenues	Total
Revenue						
Revenue from external customers	39,081	73,778	51,568	164,427	-	164,427
Inter-segment revenue	-	-	-	-	-	-
Total revenue	39,081	73,778	51,568	164,427	-	164,427
Operating result						
Segment profit (loss)	1,549	(606)	725	1,668	-	1,668
Finance cost						(117)
Other income						1,530
Profit before income tax						3,081
Income tax expense						(1,753)
Profit for the year						1,328

(Unit: Thousand Baht)

Year ended 31 December 2018						
	Media and contents	Management of events	Digital service	Total segments	Elimination of inter-segment revenues	Total
Revenue						
Revenue from external customers	36,185	54,282	45,197	135,664	-	135,664
Inter-segment revenue	-	-	-	-	-	-
Total revenue	36,185	54,282	45,197	135,664	-	135,664
Operating result						
Segment profit (loss)	3,022	(2,214)	2,433	3,241	-	3,241
Finance cost						(140)
Other income						1,219
Profit before income tax						4,320
Income tax expense						(920)
Profit for the year						3,400

The Company is operated in Thailand only, as a result all of the revenues and assets as reflected in these financial statements pertain to the aforementioned geographical reportable.

For the year 2019, the Company has revenue from 4 major customers in amount of Baht 8 million, Baht 8 million, Baht 8 million and Baht 7 million, arising from digital service segment, management of events segment, and media and contents segment (2018: 4 major customers in amount of Baht 9 million, Baht 8 million, Baht 8 million, and Baht 7 million, arising from digital service segment, management of events segment, and media and contents segment).

27. Provident fund

The Company and its employees have jointly established a provident fund in accordance with the Provident Fund Act B.E. 2530. Employees and the Company contribute to the fund monthly at the rates of 3 and 5 percent of basic salary. The fund and benefit will be paid to employees upon termination in accordance with the fund rules.

During the year 2019, the Company contributed Baht 1.2 million (2018: Baht 1.1 million) to the fund.

28. Operating lease and service commitments

The Company has entered into operating lease agreements in respect of the lease of warehouse space, motor vehicles and service agreements. The terms of agreements are generally 1 and 5 years. These agreements are non-cancellable.

As at 31 December 2019 and 2018, minimum lease payments, required under these non-cancellable operating agreements contracts were as follows.

	(Unit: Million Baht)	
	2019	2018
Payable:		
In up to 1 year	9.3	5.0
In over 1 and up to 5 years	0.3	1.2

29. Financial instruments

29.1 Financial risk management

The Company's financial instruments, as defined under Thai Accounting Standard No.107 "Financial Instruments: Disclosure and Presentations", principally comprise cash and cash equivalents, current investments, trade and other receivables, restricted bank deposits, trade and other payables and liabilities under finance lease agreement. The financial risks associated with these financial instruments and how they are managed is described below.

Credit risk

The Company is exposed to credit risk primarily with respect to trade accounts receivable and other receivables. The Company manages the risk by adopting appropriate credit control policies and procedures and therefore does not expect to incur material financial losses. In addition, the Company does not have high concentrations of credit risk since it has a large customer base. The maximum exposure to credit risk is limited to the carrying amounts of receivables and other receivables as stated in the statement of financial position.

Interest rate risk

The Company's exposure to interest rate risk relates primarily to its cash at banks with interest bearing. However, since most of the Company's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate, the interest rate risk is expected to be minimal.

Significant financial assets and liabilities classified by type of interest rate are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date.

(Unit: Million Baht)

As at 31 December 2019					
	Fixed interest rate		Floating	Non-interest	Effective
	Within 1 year	1 - 5 years	interest rate	bearing	interest rate
					(% p.a.)
<u>Financial assets</u>					
Cash and cash equivalents	-	-	72.7	0.1	0.37 - 1.40
Current investment	1.0	-	-	-	0.90 - 1.00
Trade and other receivables	-	-	-	56.4	-
Deposits at bank with restrictions	6.5	-	5.0	-	0.38 - 1.00
<u>Financial liabilities</u>					
Trade and other payables	-	-	-	18.1	-
Liabilities under finance lease					
agreement	0.4	0.7	-	-	6.17

*6%

(Unit: Million Baht)

As at 31 December 2018

	Fixed interest rate		Floating	Non-interest	Effective
	Within 1 year	1 - 5 years	interest rate	bearing	interest rate
					(% p.a.)
<u>Financial assets</u>					
Cash and cash equivalents	-	-	104.6	0.1	0.38 - 4.10
Current investment	0.9	-	-	-	0.90 - 1.00
Trade and other receivables	-	-	-	39.8	-
Deposits at bank with restrictions	6.5	-	5.0	-	0.38 - 1.00
<u>Financial liabilities</u>					
Trade and other payables	-	-	-	16.0	-
Liabilities under finance lease					
agreement	0.3	1.1	-	-	6.17

Foreign currency risk

The Company considers itself no foreign currency risk because it has few transactions that are denominated in foreign currency. The Company therefore does not enter into forward exchange contracts.

29.2 Fair values of financial instruments

Since the majority of the Company's financial instruments are short-term in nature or carrying interest at rates close to the market interest rates, their fair value is not expected to be materially different from the amounts presented in the statement of financial position.

30. Capital management

The primary objective of the Company's capital management is to ensure that it has an appropriate financial structure in order to support its business and maximise shareholder value. As at 31 December 2019, the Company's debt-to-equity ratio was 0.13:1 (2018: 0.13:1).

31. Approval of financial statements

These financial statements were authorised for issue by the Company's Board of Directors on 24 February 2020.
