

ARIP Public Company Limited  
Report and financial statements  
31 December 2022

## Independent Auditor's Report

To the Shareholders of ARIP Public Company Limited

### Opinion

I have audited the accompanying financial statements of ARIP Public Company Limited (the Company), which comprise the statement of financial position as at 31 December 2022, and the related statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ARIP Public Company Limited as at 31 December 2022, its financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

### Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Company in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

### Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matters and how audit procedures respond for each matter are described below.

### **Revenue recognition**

The Company's sales and service income forms a significant amount and due to the nature of the Company's business with variety of types of income are generated. I therefore addressed the measurement and timing of revenue recognition as a key audit matter.

I have examined the revenue recognition of the Company by

- Assessing and testing the Company's IT system and its internal controls with respect to the revenue cycle by making enquiry of responsible executives, gaining an understanding of the controls and selecting representative samples to test the operation of the designed controls.
- Applying a sampling method to select service agreements and sale transactions occurring during the year and near the end of the accounting period to verify the occurrence and accuracy of revenue, whether revenue recognition was consistent with the conditions, and whether it was in compliance with the Company's policy.
- Reviewing credit notes that the Company issued after the period-end.
- Performing analytical procedures on disaggregated data to detect possible irregularities in transactions throughout the period, particularly for accounting entries made through journal vouchers.

### **Other Information**

Management is responsible for the other information. The other information comprise the information included in annual report of the Company, but does not include the financial statements and my auditor's report thereon. The annual report of the Company is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Company, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

### **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

**ARIP Public Company Limited**  
**Notes to financial statements**  
**For the year ended 31 December 2022**

**1. General information**

**1.1 Corporate information**

ARIP Public Company Limited (“the Company”) is a public company incorporated and domiciled in Thailand. The Company is principally engaged in the management of events and marketing activities, the production of e-books, advertisements and all content in digital media, the production and distribution of IT-related publications, and the placement of advertisements. The registered office of the Company is at 99/16-20 Ratchadapisek Road, Din Daeng, Bangkok.

**1.2 The COVID-19 Pandemic**

The Coronavirus disease 2019 pandemic is adversely impacting most businesses and industries. This situation may bring uncertainties and have an impact on the environment in which the Company operates. The Company’s management has continuously monitored ongoing developments and assessed the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and has used estimates and judgement in respect of various issues as the situation has evolved.

**2. Basis of preparation**

The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

### 3. New financial reporting standards

#### 3.1 Financial reporting standards that became effective in the current year

During the year, the Company has adopted the revised financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2022. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The adoption of these financial reporting standards does not have any significant impact on the Company's financial statements.

#### 3.2 Financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2023

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2023. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The management of the Company believes that adoption of these amendments will not have any significant impact on the Company's financial statements.

### 4. Significant accounting policies

#### 4.1 Revenue recognition

##### *Rendering of services*

Service revenue is recognised over time when services have been rendered taking into account the stage of completion, using output method, measuring based on information provided by the Company's project managers.

The recognised revenue which is not yet due per the contracts has been recorded as "Accrued income". The amounts recognised as accrued income are reclassified to trade receivables when the Company's right to consideration is unconditional such as upon completion of services and acceptance by the customer.

Advertising service income is recognised at a point in time when the service has been rendered. The service is generally considered to be rendered when the advertisement is issued.

Arrangement of exhibitions and seminar is recognised at a point in time when the event has occurred.

กรรมการ

  
ARIP  
บริษัท เอเชียทีซี จำกัด (มหาชน)  
ARIP Public Company Limited

  
(นายบุญเลิศ นราไท)  
กรรมการ

### *Sales of goods*

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. Revenue is measured at the amount of the consideration received or receivable, excluding value added tax, of goods supplied after deducting returns, discounts, allowances and price promotions to customers.

### *Magazine subscription income*

Magazine subscription income is recognised over time based on straight-line basis over the subscription period.

### *License income*

License income is recognised as revenue at a point in time on delivery of the right to use program, provided that there are no significant post delivery obligations.

### *Interest income*

Interest income is calculated using the effective interest method and recognised on an accrual basis. The effective interest rate is applied to the gross carrying amount of a financial asset, unless the financial assets subsequently become credit-impaired when it is applied to the net carrying amount of the financial asset (net of the expected credit loss allowance).

## **4.2 Cost to fulfill a contract**

The Company recognised costs that relate to the satisfaction of performance obligations under the contract as asset, when the costs generate or enhance resources of the entity that will be used in satisfying performance obligations in the future and are expected to be recovered. The costs are amortised on a systematic basis that is consistent with the nature of the revenue recognition. The Company recognised impairment loss to the extent that the carrying amount of an asset exceeds the amount of the consideration less related cost.

## **4.3 Cash and cash equivalents**

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

## **4.4 Inventories**

Inventories are valued at the lower of cost (under the weighted average method) and net realisable value.

  
(นายบุญเลิศ นราไท)  
กรรมการ

  
บริษัท เอเชีย ไรฟ จำกัด (มหาชน)  
ARIP Public Company Limited

  
(นายบุญเลิศ นราไท)  
กรรมการ

#### 4.5 Property, building and equipment / depreciation

Land is stated at cost. Buildings and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of building and equipment is calculated by reference to their costs on the straight-line basis over the following estimated useful lives:

Building	-	20 years
Building improvements	-	5, 10, 20 years
Computer equipment	-	3, 5 years
Office equipment and furniture	-	5 years
Motor vehicles	-	5 years

Depreciation is included in determining income.

No depreciation is provided on land and assets under installation.

An item of property, building and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

#### 4.6 Leases

At inception of contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

##### **The Company as a lessee**

The Company applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. At the commencement date of the lease (i.e. the date the underlying asset is available for use), the Company recognises right-of-use assets representing the right to use underlying assets and lease liabilities based on lease payments.

##### ***Right-of-use assets***

Right-of-use assets are measured at cost, less accumulated depreciation, any accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities initially recognised, initial direct costs incurred, and lease payments made at or before the commencement date of the lease less any lease incentives received.

กรรมการ

  
ARIP  
บริษัท เอเชีย ไรฟ จำกัด (มหาชน)  
ARIP Public Company Limited

  
(นายบุญเลิศ นาทอง)  
กรรมการ

#### 4.7 Intangible assets/amortisation

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Intangible assets with finite lives are amortised on a systematic basis over the economic useful life and tested for impairment whenever there is an indication that the intangible assets may be impaired. The amortisation period and the amortisation method for such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

A summary of the intangible assets with finite useful lives is as follows:

	<u>Useful lives</u>
Computer softwares	3, 5 years
E-course	3 years

#### 4.8 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

They also include individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors, and officers with authority in the planning and direction of the Company's operations.

#### 4.9 Foreign currencies

The financial statements are presented in Baht, which is also the Company's functional currency.

Transactions in foreign currency are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

#### 4.10 Impairment of non-financial assets

At the end of each reporting period, the Company performs impairment reviews in respect of property, building and equipment, right-of-use assets and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount. In determining value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by a valuation model that, based on information available, reflects the amount that the Company could obtain from the disposal of the asset in an arm's length transaction between knowledgeable, willing parties, after deducting the costs of disposal.

An impairment loss is recognised in profit or loss.

#### 4.11 Employee benefits

##### *Short-term employee benefits*

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

##### *Post-employment benefits*

##### **Defined contribution plans**

The Company and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Company. The fund's assets are held in a separate trust fund and the Company's contributions are recognised as expenses when incurred.

##### **Defined benefit plans**

The Company has obligations in respect of the severance payments it must make to employees upon retirement under labor law. The Company treats these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from defined benefits plans are recognised immediately in other comprehensive income.

Past service costs are recognised in profit or loss on the earlier of the date of the plan amendment or curtailment and the date that the Company recognises restructuring-related costs.

#### 4.12 Provisions

Provisions are recognised when the Company has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

#### 4.13 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

##### Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

##### Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rate enacted at the end of the reporting period.

The Company recognises deferred tax liabilities for all taxable temporary differences while it recognises deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Company reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Company records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

#### 4.14 Financial instruments

The Company initially measures financial assets at its fair value plus, in the case of financial assets that are not measured at fair value through profit or loss, transaction costs. However, trade receivables, that do not contain a significant financing component are measured at the transaction price as disclosed in the accounting policy relating to revenue recognition.

## **Classification and measurement of financial assets**

Financial assets are classified, at initial recognition, as to be subsequently measured at amortised cost, fair value through other comprehensive income (FVOCI), or fair value through profit or loss (FVTPL). The classification of financial assets at initial recognition is driven by the Company's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

### ***Financial assets at amortised cost***

The Company measures financial assets at amortised cost if the financial asset is held in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

## **Classification and measurement of financial liabilities**

At initial recognition the Company's financial liabilities are recognised at fair value net of transaction costs and classified as liabilities to be subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. In determining amortised cost, the Company takes into account any fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in profit or loss.

## **Recognition and derecognition of financial instruments**

Regular way purchases and sales of financial assets are recognised or derecognised on the settlement date, i.e., the date on which an asset is delivered to or by the Company.

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or have been transferred and either the Company has transferred substantially all the risks and rewards of the asset, or the Company has transferred control of the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

### Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate.

For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure (a lifetime ECL).

The Company considers a significant increase in credit risk to have occurred when contractual payments are more than 30 days past due and considers a financial asset as credit impaired or default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to have a significant increase in credit risk and to be in default using other internal or external information, such as credit rating of issuers.

For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

ECLs are calculated based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

#### 4.15 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Company apply a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Company measure fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

- Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities
- Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Company determine whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

#### 5. Significant accounting judgments and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgments and estimates regarding matters that are inherently uncertain. These judgments and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgments and estimates are as follows:

##### Estimated stage of completion

The Company recognises service revenue over the period for which service is rendered taking into account the stage of completion. The management is required to use judgement based on the best information available in the current situation and business experience to measure progress towards complete satisfaction of a performance obligation (output method), based on information provided by the project managers.

## Allowance for expected credit losses of trade receivables

In determining an allowance for expected credit losses of trade receivables, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the forecast economic condition for groupings of various customer segments with similar credit risks. The Company's historical credit loss experience and forecast economic conditions may also not be representative of whether a customer will actually default in the future.

## Intangible assets

The initial recognition and measurement of intangible assets, and subsequent impairment testing, require management to make estimates of cash flows to be generated by the asset or the cash generating units and to choose a suitable discount rate in order to calculate the present value of those cash flows.

## Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

## Post-employment benefits under defined benefit plans

The obligation under the defined benefit plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

## 6. Related party transactions

## 17. Leases

### The Company as a lessee

The Company has lease contracts for motor vehicle used in its operations. The term of the agreement is generally 5 years.

#### a) Right-of-use assets

Movements of right-of-use assets for the years ended 31 December 2022 and 2021 are summarised below:

	(Unit: Thousand Baht)
	Motor vehicle
1 January 2021	1,087
Depreciation for the year	(598)
31 December 2021	489
Additions	429
Depreciation for the year	(560)
31 December 2022	358

#### b) Lease liabilities

	(Unit: Thousand Baht)	
	2022	2021
Lease payments	526	324
Less: Deferred interest expenses	(146)	(8)
Total	380	316
Less: Portion due within one year	(69)	(316)
Lease liabilities - net of current portion	311	-

Movements of the lease liability account during the years ended 31 December 2022 and 2021 are summarised below:

	(Unit: Thousand Baht)	
	2022	2021
Balance at beginning of year	316	715
Additions	429	-
Accretion of interest	63	33
Repayments	(428)	(432)
Balance at end of year	380	316

A maturity analysis of lease payments is disclosed in Note 29 under the liquidity risk.

Significant actuarial assumptions are summarised below:

	2022	2021
	(%per annum)	(%per annum)
Discount rate	2.24	2.24
Future salary increase rates (depending on age)	2.5 - 5.0	2.5 - 5.0
Staff turnover rates	0 - 25.0	0 - 25.0

The result of sensitivity analysis for significant assumptions that affect the present value of the long-term employee benefit obligation as at 31 December 2022 and 2021 are summarised below:

31 December 2022				
	Increase	Effect to obligation	Decrease	Effect to obligation
	(%)	(Thousand Baht)	(%)	(Thousand Baht)
Discount rate	1	(763)	1	860
Salary increase rate	1	846	1	(766)
Turnover rate	10	(350)	10	384

31 December 2021				
	Increase	Effect to obligation	Decrease	Effect to obligation
	(%)	(Thousand Baht)	(%)	(Thousand Baht)
Discount rate	1	(730)	1	827
Salary increase rate	1	724	1	(657)
Turnover rate	10	(351)	10	385

## 19. Statutory reserve

Pursuant to Section 116 of the Public Limited Companies Act B.E. 2535, the Company is required to set aside to a statutory reserve at least 5 percent of its profit for the year after deducting accumulated deficit brought forward (if any), until the reserve reaches 10 percent of the registered capital. The statutory reserve is not available for dividend distribution. At present, the statutory reserve has fully been set aside.

## 22. Expenses by nature

Significant expenses classified by nature are as follows:

	(Unit: Million Baht)	
	2022	2021
Employee expenses	59	46
Cost of sales, advertising media and services	128	91
Depreciation and amortisation	7	6
Consultant and management fees	2	3

## 23. Promotional privilege

The Company has received promotional privilege from the Board of Investment for the manufacture of Enterprise software, Digital content and Embedded Software, pursuant to the promotion certificate No. 2911(7)/2555 issued on 20 December 2012. Subject to certain imposed conditions, the tax privilege of the Company includes an exemption from corporate income tax on income from the promoted activities for a period of 8 years as from the date of first earning operating income (8 October 2013).

During the year 2022 and 2021, the Company has no operating revenue derived from promoted operation.

## 24. Earnings per share

Basic earnings per share is calculated by dividing profit for the year (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

Calculation of basic earnings per share is presented below:

	2022	2021
Profit for the year (Thousand Baht)	12,103	5,202
Weight average number of ordinary shares (Thousand shares)	466,000	466,000
Basic earnings per share (Baht/share)	0.026	0.011

กรรมการ

## 25. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance.

For management purposes, the Company is organised into business units based on its products and services and has three reportable segments as follows:

- Media and contents
- Management of events
- Digital service

During the year, no operating segments have been aggregated to form the above reportable operating segments.

The chief operating decision maker monitors the operating results of the business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and total assets and on a basis consistent with that used to measure operating profit or loss and total assets in the financial statements. However, the Company financing activities (including finance costs and finance income) and income taxes are managed on a company basis and are not allocated to operating segments.

The basis of accounting for any transactions between reportable segments is consistent with that for third party transactions.

The following tables present revenue and profit information regarding the Company's operating segments for the years ended 31 December 2022 and 2021, respectively.

(Unit: Thousand Baht)

	For the year ended 31 December 2022					
	Media and contents	Management of events	Digital service	Total segments	Elimination of inter-segment revenues	Total
<b>Revenue</b>						
Revenue from external customers	48,057	62,794	115,377	226,228	-	226,228

### 29. Financial instruments

#### 29.1 Financial risk management objectives and policies

The Company's financial instruments-principally comprise cash and cash equivalents, trade and other receivables, other current financial assets, restricted bank deposits, trade and other payables and lease liabilities. The financial risks associated with these financial instruments and how they are managed is described below.

#### Credit risk

The Company is exposed to credit risk primarily with respect to trade accounts receivable, contract assets, deposits with banks and financial institutions and other current financial assets. The maximum exposure to credit risk is limited to the carrying amounts as stated in the statement of financial position.

### ***Trade receivables***

The Company manages the risk by adopting appropriate credit control policies and procedures and therefore does not expect to incur material financial losses. In addition, the Company regularly monitors the outstanding trade receivables and has a policy to expand its customer group to diversify the Company's customer base in various industries which reducing the risk of debtor concentration.

An impairment analysis is performed at each reporting date to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar credit risks. The Company classifies customer segments by customer type. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written-off when performing legal collection or the prosecute is finalised.

### ***Financial instruments and cash deposits***

The Company's management manages the credit risk from balances with banks and financial institutions by making investments within credit limits which are approved and reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the Company's Executive Committee.

### **Market risk**

There are two types of market risk comprising currency risk and interest rate risk.

### ***Foreign currency risk***

The Company considers itself no foreign currency risk because it has few transactions that are denominated in foreign currency. The Company therefore does not enter into forward exchange contracts.

### ***Interest rate risk***

Most of the Company's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate, the interest rate risk is expected to be minimal.

### **Liquidity risk**

The Company's cash and cash equivalent exceeded its current liabilities which the liquidity risk is low. In addition, the Company is able to access to sufficient sources of funding from its bank overdraft facility and bank guarantee facility.

The methods and assumptions used by the Company estimating the fair value of financial instruments are as follows:

- a) For financial assets and liabilities which have short-term maturities, including cash and cash equivalents, trade and other receivables, debt instruments - fixed deposits, restricted bank deposits and trade and other payables, the carrying amounts in the statement of financial position approximate their fair value.
- b) The fair value of debt instruments - government bonds is generally derived from quoted market prices.
- c) For lease liabilities which their interest rates are close to the market rate, their carrying amounts in the statements of financial position approximate their fair values.

During the current year, there were no transfers within the fair value hierarchy.

### 30. Capital management

The primary objective of the Company's capital management is to ensure that it has an appropriate financial structure in order to support its business and maximise shareholder value. As at 31 December 2022, the Company's debt-to-equity ratio was 0.19:1 (2021: 0.21:1).

### 31. Event after the reporting period

On 23 February 2023, the Board of Director Meeting passed a resolution to propose to the 2023 Annual General Meeting of the Company's shareholders for approval dividends payment of Baht 10.02 million (Baht 0.0215 per share) from net profit for the year 2022.

### 32. Approval of financial statements

These financial statements were authorised for issue by the Company's Board of Directors on 23 February 2023.
